

LEED® Consulting Services

EI Associates now offers Integrated LEED® Design and Project Management Services. With 10 LEED® Accredited Professionals on staff, EI Associates is a specialist in the area of LEED Design and Consultation. We are current in trends and standards by constantly obtaining certification and researching the market landscape. Our team has more than 2 million square feet of experience in LEED® Projects and we devote time and resources to guarantee that each design meets and exceeds standards governed by the United States Green Building Council (USGBC). We have the ability to provide full design or specialized services depending upon the scope of work required.

Services include:

- Design Charrette
- Review Meetings
- Energy Modeling
- Daylighting Analysis
- LEED® Project Management
- LEED® Specifications / Documentation
- LEED® Online Documentation / Management
- LEED® Consulting Services for Contractors
