

# EDUCATIONAL DESIGN

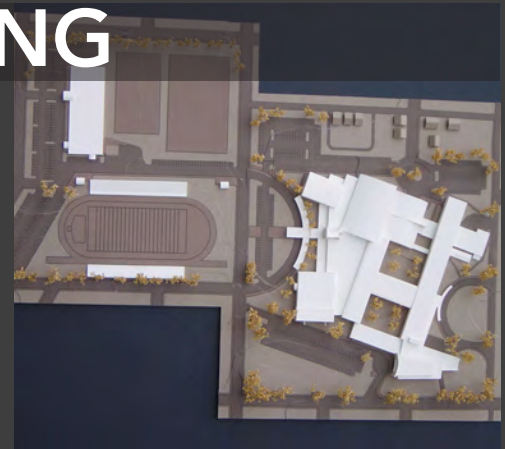

EI Associates is dedicated to meeting the needs and goals of our clients. Our team approach with the School District ensures our professional design services satisfy the educational programs which will foremost serve the needs of the administration, faculty, and students. We are committed to developing 21st century design solutions which reflect the fiscal responsibilities of the School District and meet the expectations of the community.

# FACILITY STUDIES

EI Associates has completed over 200 facility assessments and more than 80 demographic studies, which vary in content and size depending on the needs of the client. We evaluate present facility conditions and develop project options and estimated costs based on our findings.

# MASTER PLANNING

EI Associates creates a comprehensive plan that contains the full scope of an educational facility. Our diverse staff of over 150 planners, architects, interior designers, engineers, estimators, and construction professionals consider every perspective. We develop plans that look beyond the present to ensure the design of the educational facility caters to immediate needs as well as future requirements.
